

Learning Evidence-Based Medicine in a Self-Directed Veterinary Curriculum: A Case Report

Peggy Schmidt, DVM, MS

Assistant Professor
Production Medicine & Epidemiology
College of Veterinary Medicine
Western University of Health Sciences
Pomona, California
USA

WesternU - CVM

WesternU - CVM

- A commitment to student-centered, life-long learning through a problem-based learning (PBL) curriculum.
- "The practice of EBVM is a process of lifelong, self-directed problem-based learning..."
 - Cockcroft & Holmes, 2003; "Handbook of Evidence-Based Veterinary Medicine"

Figure 3: Estimated curve for the understanding and application of EBM principles by students in a 4-year self-directed veterinary curriculum.
